## Senior Environmental Scientist/Botanist

### Location: Cairns & Townsville QLD

NRA Environmental Consultants, an independent Australian company with an excellent reputation for providing credible high quality services, employs dedicated environmental practitioners who use their expertise in natural resource management to provide practical solutions for our industry, resource and government clients. We are based in Cairns and Townsville and have been in business for 25 years. NRA was the 2009 Queensland Winner of the Telstra Sensis Social Responsibility Award.

As part of our continued development program we are looking for a Botanist with tertiary qualifications in science to join our team in Cairns and Townsville.

Candidates should be self-motivated and have at least five years applied post-graduate experience. They should also have a keen interest in the application of their knowledge to environmental issues associated with the industrial and mining sectors.

Demonstrated experience in applied studies, problem solving, excellent technical report writing and communication skills, and a commitment to working as part of a professional team are required.

A position description can be obtained by contacting **Ted Tudor** on **07 4031 5122** or by emailing **ted@natres.com.au**. Conditions of employment will be discussed during the interview process.

The closing date for applications is **23 September 2010**.
